

Welcome Home Ministries – Africa September 2022

To Love, Care, and Pray Destitute Babies Back to Health; or into Jesus Loving Arms

2022

The children soon going to SOS orphanage.

The clinic gardens planted in June are doing good.

Emmanuel's mother died 2 weeks after his birth.

The start of medical incinerator - Chimney soon!

A must is a placenta pit in case we have a birth.

Helping Sumaya; TB and malnutrition..

Dear Welcome Home Friends and Family,

We always have a lot going on at the home. Since we are a baby's home (birth-to-six-year) we are looking to secure a long term future for our children; through to University or trade school and into jobs. We have seven of our young ones being prepared to graduate to "big kid school" and transition to a SOS facility. In years past we have been able to place many of these children into adoptive families some in Uganda but many overseas. International adoptions have become very difficult so we have closed those down, just finishing the last few cases. We are blest to have some local families in Uganda adopt.

We are now on the tail end of the preparation for the clinic. Thank you to those who have helped with the incinerator. As you can see progress is being made for the incinerator and a placenta pit that the government requires us to have before we open. Our team is all ready to go clean and put everything in place for final inspection.

Emmanuel was just two weeks old when his mother died. His grandmother is unable to care for him so he was admitted to the home for care and protection. We will assess the family situation and work out the best future we can for him.

Our Village medical team continues to work with the childrens whose lives are in danger. (2 pix)

We are truly very thankful for your love and support Again, thank you for your response to our need.

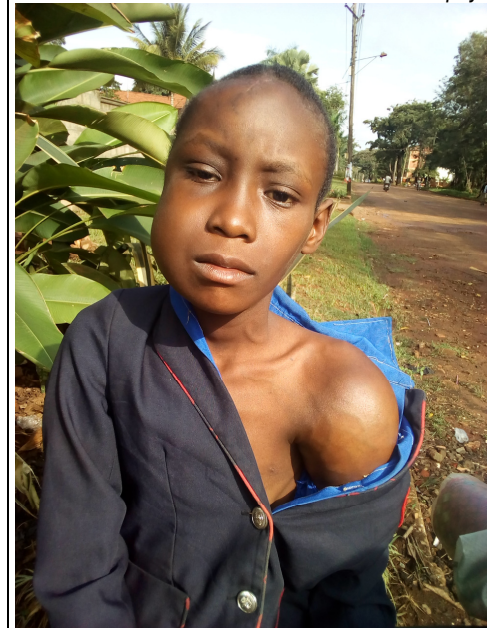

It is some encouraging.

Blessings from Mandy, and Your Welcome Home Family.
