

To Love, Care, and Pray Destitute Babies Back to Health; or into Jesus Loving Arms

Twins Daphine and Rebecca.

Dear Welcome Home Friends and Family,

My husband Luke and I have just returned home from a 10 day quick trip to Uganda. It was wonderful to see all the children and the staff. The children are all thriving in so many ways. This close lock down time of Covid has the mums working as a team like never before. They are home schooling all the children from preschool up to 4<sup>th</sup> grade. English is becoming the first language of the home. When the children leave the home they will have a good foundation of the English language for their future. It is the main language of the country so several of our mums are in English class as well.

This was my first time to see our new washing machines. They take 28 kilo or 62lb of wash per load. They are huge and are working well when the electricity is on. No electricity means more team work to get all the washing done by hand.

This month since we have the security fence in place we can now begin building the medical clinic in Lwambogo donated by the Jones family.

With all the black outs we had no choice but to replace our worn out 17 year old generator. It has served us well but is not responding to our mechanics tender loving care.

This month we are celebrating our 5 sets of twins from the tiny little ones to the bigger boys. They are all fun to get to know.

Finances have been tight this past 2 months. If you can see your way to help with some extra funds we will be very thankful. Without you this ministry would not be possible. You enable us to touch the lives of many and give a future and hope.

**Thank you for your prayers and generosity!!!!**

*Blessings from Mandy,  
and Your Welcome Home Family.*
