Above: Their young lives now secure and peaceful.

Dear Welcome Home Friends and Family,

The Home has been busy this past month. We have had **3 very young children** coming in. One a new born boy who was abandoned. Another boy who has a very irresponsible mother and a grandmother unable to cope with any care of the child. Also a little girl whose mother is mentally ill unable to provide her with care. It is for the Probation officer and us now to find our way to get these children a secure safe future.

The **siblings on the top right** who were abandoned now have much more peace and security that show in their eyes. They are taking steps toward a safe secure future. It has been good that they had each other to go through this very difficult phase of life together.

This past month we have held another medical clinic in Lwambogo with volunteer Doctors and our village team. The patients are extremely thankful. We raise the funds for these clinics and surgeries separate to the funds that come in to run the home. **Pictured to the right is 19 year old Catherine** who had been given a big injection on her sciatic nerve when she was 8 years old. It crippled her down to crawling for a long time, then she got to hopping on one leg. She had surgery, a plaster cast, now a splint has enabled her to start to walk again. See the joy on her face!!

1st March: a proposed children's issues law with major effects is to be presented to Parliament. We pray for the result to reflect what is best for the children.

Thank you all so much for your love and support
*Blessings from Mandy
and Your Welcome Home Family*
