Dean, Dorcas & Debra doing well at home

*Dear Welcome Home Friends and Family,*  
We are very happy to report that our children are all doing quite well with only a few minor sicknesses. April was a busy month of trying to bring care to the suffering village children of Uganda. Many had come in from the village so they could get the medical care needed. Families are struggling to feed their children and are not able to get them the simplest medical care. Petrol costs have raised the price of all foods. Drought has been affecting our area as well so the supply is down and costs up. It is very hard on families who were already struggling to try and make it. The formula pictured on the right will feed this little baby for approximately 6 weeks. It used to cost us 6,000 shillings or \$3 a can and is now 26,000 UGS or \$13.

We continue to seek to improve our care a little every year and have seen the results in the children's and the staff's lives. We are proud to be a Ugandan run home assisted by the West. Once again we want to thank you for your faithful part in helping us care for all these children. Without you it is impossible.
