Above: New safe helmets for our village teams.

## Dear Welcome Home Friends and Family,

On October 4th we sponsored a Ugandan mobile medical clinic of 8 doctors and 3 dentists to treat 2 large villages. Wonderful results (over 600 treated!) and that the work we have been doing there for the past 8 years has paid great dividends. Our goal is to keep the village healthy and the adults working to minimize illness and suffering of the children. Afterwards we realized more education is needed on basic first aid; like wound care, ear infections, boiling drinking water, when to see a Doctor, etc.

The last week in October our good friend Dr Phillip teamed with others to get the one young village boy from the clinic the surgery he needed to remove a very large lump from near his ear after they had his scan results. We are praying the biopsy results will reveal nothing seriously wrong and that he heals well.

Thank you to Juan and Jolene and their friends from California for the **new motorcycle helmets** for our village team and volunteers who ride with them. The helmets are top quality and will be great protection.

One of our supporters – an ardent yogurt lover - shared with **Yogurtland in Orange California** of how we enjoyed getting the spoons she had used because they are the perfect size and shape for our children. **Thank you Yogurtland** for the gift of 1,000 of your green and pink spoons, now in use by the children.

The children are healthy and happy welcoming a newcomer named Franklin (abandoned child). The care he receives from the children is a joy to watch

Thank you for your continued love and support.

*Blessings from Mandy  
and Your Welcome Home Family*
