## Dear Welcome Home Friends and Family,

The older children are all back at off-campus schools, so the home is quieter in the mornings. A few of the older children go to a regular primary school and the younger ones go to a small Baptist kindergarten. Both schools are in walking distance of the home so it is a common sight to see 2 of the mumma's with a group of children taking the safest route to school. The young ones left at the home have their bible class and preschool lessons on site. All love learning.

Our wonderful volunteers - Over the summer we had a mother and two teenagers from Holland, two Australian students, a husband and wife team from California and a teacher from Virginia plus many who came for a few days. Thanks to all of them for their assistance and love for the children and staff. These volunteers also contribute a lot to the growth and skill base of all our workers who are hungry to learn new things.

Villages - We doing as much as we can to improve the lives of the children and reduce their suffering in the 2 villages where we have worked in for 8 years with our village evangelism and medical teams.

KTLA - This school is where we train village leaders to better serve their communities. Kingdom Life Training Center operates under WHMA legal umbrella, but is funded separately. We want to hear from retirees who would be willing to go help by teaching life skills and trades to help the village children's families

Thank you for your continued love and support.
