Above The bigger kid's dining room with wooden floor.

Dear Welcome Home Friends and Family,

May was a hectic month. We asked the landlord to come and check the buildings in April because of the number of large cracks in the walls and sinking floors. In mid May we moved all the babies down to our Kingdom Life Training School to stay and completely emptied the main house. The building had to be checked by a structural engineer to determine if restoration could begin. The great news is that the place can be restored. The main problem was caused by the big kid's dining room having no cement floor just wooden tile on dirt. They dug down deeply in the dining room to make sure there are no underground water issues.

Above: Looking into the dining room from the front entry.

There continues to be a stream of needy children coming in. Some abandoned and some orphaned.

Some of our staff are studying to improve their skills and communication. The children need the staff to be able to communicate to them in English.

We were able to give 6 donated computers to Jinja Police Station so they can keep easier records. It will be a big help to us as they have many of children's records. In the past it's taken them months to find one.

Blessings from Mandy and Your Welcome Home Family
